### Issue 2

Description: **ALLEGED WILDLIFE BIRD BEE ETC  
INJURY COMPLAINT**

EPA Reg #: Product Description: Rat & Mouse Killer Child  
90780-11 & Dog Resistant Refillable Bait Station

Severity: Lot #: Not Provided  
Code: W-A

Active Ingredient: Bromethalin

Details: We have gone to Lowe's. We bought 3 of the TC  
Rat & Mouse Killer. It is doing a wonderful job. But, we  
have a neighbor that is finding dead squirrels in her yard. Is  
it possible that they could have gotten into the bait?
